

I support the Do Not Call List here in Indiana and on a Federal level as it may pertain to Indiana. Please keep in place or increase the restrictions on telemarketers and other nussance callers. This has been the best period of time regarding the lack of telemarketing calls in my life. The Do-Not-Call list is great. Do not get rid of it or lessen the requirements. If anything provide more teeth to ensure telemarketers do not violate the law. Do not change anything that would allow them to call if someone has ordered information or products in the last 18 mths. This would open the door to just about anything. Lets keep them out. When I purchase I will will open the door when I desire. Thanks
